Barat Housing Development
and the
Northmoor / South Park Community

1. A road from the Barat Campus running through the Woods and South Park into the Northmoor neighborhood should not be permitted. It is not essential for the new development and would adversely effect the existing established residential neighborhood and South Park

2. The Woods between South Park and the Barat Campus should remain whole and untouched. The Woods should not be bisected by a road or pathway. Pedestrian access to South Park from Barat already exist to the east and west of the Woods.
